APPLICATION GUIDELINES
JAPANESE GOVERNMENT (MEXT) SCHOLARSHIP FOR 2025
(RESEARCH STUDENTS)

The Ministry of Education, Culture, Sports, Science and Technology (MEXT) of Japan offers scholarships to international students who wish to study in graduate courses at Japanese universities as Research Students (either regular students or non-regular students) under the Japanese Government (MEXT) Scholarship Program as follows.

1. DEFINITION OF “RESEARCH STUDENTS”

Those who are enrolled in a master’s course, a doctoral course, or a professional graduate course at a graduate school, or who are conducting research in a specialized field at an undergraduate department, graduate school, institute attached to a university, etc. with the aim of completing the course, or who are receiving preparatory education in the Japanese language and other subjects prior to placement at the university, etc. (Excluding Young Leaders’ Program Students or Teacher Training Students.)

2. FIELDS OF STUDY

Applicants should apply for the field of study they majored in at university or its related field. Moreover, the fields of study must be subjects which applicants will be able to study and research in graduate courses at Japanese universities. The fields of study may be restricted to particular fields by the Japanese Embassy or Consulate (hereinafter referred to “Japanese diplomatic mission”) in the applicant’s country.

Traditional entertainment arts such as Kabuki and classical Japanese dances, or subjects that require practical training in specific technologies or techniques at factories or companies are not included in the fields of study under this scholarship program.

A student who studies medicine, dentistry or welfare science will not be allowed to engage in clinical training such as medical care and operative surgery until he/she obtains a relevant license from the Minister of Health, Labor and Welfare under applicable Japanese laws.

3. QUALIFICATIONS AND CONDITIONS

MEXT accepts applications from international students for study in Japan who satisfy the following qualifications and conditions. Its aim is to foster human resources who will become bridges of friendship between the grantee’s country and Japan through study in Japan and who will contribute to the development of both countries and the wider world.

- (1) Nationality:** Applicants must have the nationality of a country that has diplomatic relations with Japan. An applicant who has Japanese nationality at the time of application is not eligible. However, persons with dual nationality who hold Japanese nationality and whose place of residence at the time of application is outside of Japan are eligible to apply as long as they choose the nationality of the other country and renounce their Japanese nationality by the date of their arrival in Japan (the acquisition of student status). The First Screening must be conducted at the Japanese diplomatic mission in the country of which the applicant chooses the nationality.
- (2) Age:** Applicants, in principle, must have been born on or after April 2, 1990. Exceptions are limited to cases in which MEXT deems that the applicant could not apply within the eligible age limit due to the situation or circumstances of the applicant’s country (military service obligation, loss of educational opportunities due to disturbances of war, etc.) Personal circumstances (financial situation, family circumstances, state of health, circumstances related to applicant’s university or place of employment, etc.) will not be considered for exceptions.
- (3) Academic Background:** Applicants must satisfy any one of the following conditions for admission to either a master’s or doctoral course at a Japanese graduate school in which they wish to first enroll. (Applicants who will certainly satisfy any of the following conditions by the time of enrollment are eligible.)
 - (a) Master’s course / Doctoral course (first phase)**
 - ① Applicants who have completed 16 years of school education in countries other than Japan.
 - ② Applicants who have completed a program with the standard study period of three years or more at universities or equivalent educational institutions in countries other than Japan and received a degree equivalent to a bachelor’s degree.
 - ③ Other than the above ① and ② conditions, applicants who are eligible for enrollment in a master’s course /doctoral course (first phase) at a Japanese graduate school.
 - (b) Doctoral course (second phase)**
 - ① Applicants who have been awarded with an overseas degree equivalent to a master’s degree or professional degree.
 - ② Applicants who have graduated from universities and have been involved in research study at universities or research centers (including overseas universities and research centers) for two years or more, and recognized

as having academic competency equivalent to persons with a master's degree by the graduate school.

- ③ Other than the above ① and ② conditions, applicants who are eligible for enrollment in a doctoral course (second phase) at a Japanese graduate school.

(c) Doctoral course (faculties of medicine, dentistry, veterinary sciences, and certain parts in pharmaceutical fields)

- ① Applicants who have completed 18 years of school education in countries other than Japan.
 - ② Applicants who have completed a program with the standard study period of five years or more at universities or equivalent educational institutions in countries other than Japan and received a degree equivalent to a bachelor's degree.
 - ③ Applicants who have completed 16 years of school education in countries other than Japan and have been involved in research study at universities or research centers (including overseas universities and research centers) for two years or more, and recognized as having academic competency equivalent to university graduates in medicine, dentistry, veterinary sciences or certain parts in pharmaceutical fields by the graduate school.
 - ④ Other than the above ①, ② and ③ conditions, applicants who are eligible for enrollment in a doctoral course (faculties of medicine, dentistry, veterinary sciences and certain parts in pharmaceutical fields) at a Japanese graduate school.
- ※ For (c) above, you must confirm necessary academic background details on the websites of the universities in which you wish to enroll since the academic background needed for admission may vary according to university. [For example, (c)-① stipulates that applicants must graduate from an undergraduate program in medicine, dentistry, veterinary or pharmaceutical sciences.]

(4) Japanese Language: Applicants must be willing to learn Japanese. Applicants must be interested in Japan and be willing to deepen their understanding of Japan after arriving in Japan. Applicants must also have the ability to do research and adapt to living in Japan.

(5) Health: Applicants must submit a health certificate in the prescribed format signed by a physician attesting that the applicant has no physical or mental conditions hindering the applicant's study in Japan.

(6) Arrival in Japan: Applicants must choose and fill in the Application Form either of the following arrival periods ① or ②. In principle, a change in the arrival period is not permitted after the submission of the Application Form.

Excluding cases in which MEXT deems as unavoidable circumstances, the applicant must withdraw from this scholarship program if the applicant cannot arrive in Japan by the end of the specified period above which is decided by MEXT or the accepting university. If the applicant arrives in Japan not in the specified period for personal reasons, travel expenses to Japan will not be paid.

(7) Visa Requirement: Applicants shall, in principle, newly obtain a "Student" visa at the overseas establishment of Japan located in the applicant's country of nationality, and enter Japan with the status of residence as "Student." If the applicant resides in Japan exceptionally before acceptance, the applicant must change or renew his/her status of residence to as "Student" by the end of the month prior to the installment of the first scholarship payment.

- (9) **Others:** MEXT Scholarship will be granted those who are willing to contribute to mutual understanding between Japan and their home country by participating in activities at schools and communities during their study in Japan while contributing to the internationalization of Japan. They shall also make efforts to promote relations between the home country and Japan by maintaining close relations with the university attended after graduation, cooperating with the conducting of surveys and questionnaires, and cooperating with relevant projects and events conducted by the Japanese diplomatic mission after they return to their home countries.

4. PERIOD OF SCHOLARSHIP

(1) Non-regular students:

- ① Grantees who arrived in Japan during the April term: The scholarship period will last from April 2025 until the end of March 2027.
- ② Grantees who arrived in Japan during the October term: The scholarship period will last from September or October 2025 until the end of March 2027.

In either case, the first 6-month period of scholarship will be a term of preparatory education of Japanese language (hereinafter referred to “the preparatory education”) for those who require such education. In cases of arrival in Japan in other months than those specified above, MEXT will decide the period of scholarship separately.

(Note) If the university term begins (and the student status is acquired) in the middle of the month, the scholarship will not be paid for that month.

(ex.) The scholarship payments will begin in October 2025 if the university’s autumn term starts after September 2, 2025.

(2) Regular students enrolled in master’s, doctoral, or professional graduate courses:

Regardless of the date of arrival, the scholarship period shall be the necessary period for the completion of the respective regular course (hereinafter referred to “the standard period of study”. See “13. ACADEMIC PATHWAY FOR RESEARCH STUDENTS” for the standard period of study at each course). In only those cases where the accepting university deems that preparatory education is necessary for conducting research in a specialized field, a 6-month preparatory education period will be added prior to the regular degree course.

5. EXTENSION OF PERIOD OF SCHOLARSHIP

Non-regular students advancing to a regular degree course in a graduate school as a regular student, or regular students in a master’s or professional graduate course wishing to proceed to a doctoral course, with outstanding academic achievement that meets certain criteria may apply for extension of the scholarship period for advanced study and may have the scholarship period extended upon a successful examination by MEXT. Followings are some points to note:

- ① The extension of the scholarship period will be permitted only if the successful student has passed an entrance examination for a regular degree course at a graduate school in which they wish to enroll and expresses his/her intention to enroll in the course.
- ② Non-regular students cannot extend the scholarship period as they stay in non-regular courses.
- ③ Students who are admitted to advanced courses without receiving approval for the extension of the scholarship period for advanced study cannot be granted the extension of the scholarship period. (In such cases, it is possible for the students to be enrolled in advanced courses as a privately-financed student.)

6. SCHOLARSHIP BENEFITS

(1) Allowance: The amounts listed below shall be paid depending on the course enrolled in. A supplemental regional allowance of 2,000 yen or 3,000 yen per month will be added to the monthly scholarship amount for the grantees studying or conducting research in specially designated regions. Due to the situation of the Japanese Government's budget, the amount of payment may be subject to change each fiscal year. If a grantee is absent from the university for an extended period, the scholarship shall be suspended for that period.

- ① Students receiving the preparatory education and non-regular students: 143,000 yen per month

(3) Traveling Expenses

① **Transportation to Japan:** MEXT will stipulates the travel schedule and route, and provides an airline ticket to grantees who will arrive in Japan during the specified period stated in "3. (6) Arrival in Japan". The airline ticket will be an economy-class ticket for the flight from the international airport closest to the grantee's residence (in principle, the country of nationality) to an international airport in Japan used on the normal route to the accepting university. The grantee shall bear at his/her own expense all costs related to domestic travel from the grantee's residence to the nearest international airport, airport taxes, airport usage fees, special taxes necessary for travel, travel expenses within Japan (including airline transit costs), travel insurance expenses, carry-on luggage or unaccompanied baggage expenses, etc. The grantee shall also bear at his/her own expense for travel and lodging costs incurred in a third country in case(a) the grantee must travel to a third country on the way to Japan for visa purposes because there are no Japanese diplomatic missions in his/her country or because Japanese diplomatic missions in his/her country are temporally closed, or (b) there are no direct flights from the grantee's country of nationality to Japan. In such cases, MEXT will provide an economy-class airline ticket from the grantee's country of nationality to the said third country, and from the third country to an international airport in Japan used on the normal route to the accepting university. In principle, the address given in the space for "Current address" on the application form shall be recognized as the "residence." However, if the grantee plans to move within his/her country of nationality after application, the address given in the space for "Your address before departure for Japan" on the application form shall be recognized as the "residence") and the airline ticket will be arranged for a flight from the international airport nearest to that address. Except for cases when the grantee must travel to a third country to obtain a visa, MEXT will not provide an airline ticket for cases of travel to Japan from a country other than the grantee's country of residence due to the grantee's personal circumstances. If a grantee will arrive in Japan before or after the specified period stated in "3. (6) Arrival in Japan", travel expenses will not be paid.

② **Transportation from Japan:** Based on the application by the grantee, MEXT will provide an airline ticket to grantees who shall graduate the accepting university and return to the home country by the end of the final month of the period of scholarship (See "4. PERIOD OF SCHOLARSHIP") designated by MEXT. MEXT shall provide an economy-class airline ticket from the international airport in Japan used for the normal route to and from the accepting university to the international airport (in principle, in the country of nationality) nearest to the returning grantee's residence. The grantee shall bear at his/her own expense all costs related to travel from the grantee's residence in Japan to the nearest international airport, airport taxes, airport usage fees, special taxes necessary for travel, travel expenses within the country of nationality (including airline transit costs), travel insurance expenses, carry-on luggage or unaccompanied baggage expenses, etc. If a grantee returns to the home country before the end of period of scholarship due to personal circumstances, or reasons stated in "7. SUSPENSION OF PAYMENT OF SCHOLARSHIP", MEXT will not pay for the returning travel expenses. If a grantee continues to stay in Japan after the scholarship period has ended (ex. proceeding to further education or being employed in Japan, continuing to register at the university), travel expenses for a temporary return will also not be paid.

7. SUSPENSION OF PAYMENT OF SCHOLARSHIP

Payment of the scholarship will be cancelled for the reasons given below. Should any of the following reasons apply, the grantee may be ordered to return a part of, or all of, the scholarship paid up to that time. Payment of the scholarship may also be stopped during the period up to the decision on the disposition of the matter.

- ⑥ A grantee came to Japan without newly obtaining a “Student” visa, or changed his/her status of residence to something other than “Student” after entering into Japan;
- ⑦ A grantee has received another scholarship (a scholarship or fellowship from Japanese government, a Japanese government-related organization and others) not approved for acceptance in conjunction with the MEXT Scholarship;

If printing out the certificate from the Internet, print out and submit a page showing the applicant's name and the details of the relevant qualification (level, score, etc.). The date of issue of the certificate should be no earlier than two years from the date of application ("Date of application" entered on the last page of the application form) to the Japanese diplomatic mission.

10. FIRST SCREENING

- (1) The Japanese diplomatic missions will conduct the First Screening of applicants by means of examination of submitted application documents, written examinations of language proficiency and interviews.
- (2) The subjects of written examinations of language proficiency will be Japanese and English. Both subjects must be taken by all applicants. The result of the Japanese language examination will be used as reference for the Japanese-language preparatory education to be provided after the grantee's arrival in Japan. Moreover, the English proficiency test may be exempted for countries where English is the official language. Applicants must follow guidance by the overseas diplomatic establishment of their national origin.
- (3) The following policy will apply to each stage of screening:
- ① Examination of submitted application documents: Must show that the applicant's academic achievement at the university that he/she last graduated from equaled to or exceeded a certain level, and state the applicant's research plan in a detailed and concrete manner;
 - ② Written examination of language proficiency: Must show language proficiency adequate for research in a Japanese university;
 - ③ Interview: Must reveal that the applicant has a clear sense of purpose relating to his/her study in Japan and has gathered information about Japanese universities. The interview must also reveal that the applicant has sufficient Japanese or English language ability to communicate with his/her academic advisor in Japan. If the applicant desires to study a subject that requires advanced Japanese language proficiency, the interview must show that the applicant has a considerable degree of Japanese language proficiency.
- (4) The date and time of the notification of the results of the First Screening will be specified separately by the

Japanese diplomatic missions in the applicant's country; the reasons for the results of the screening will not be disclosed. Those who pass the First Screening will not necessarily be selected as the MEXT Scholarship grantees.

(5) The results of the First Screening will be used as reference for the Second Screening and the university placement.

11. REQUEST OF PROVISIONAL ACCEPTANCE AND SUBMISSION OF A PLACEMENT FORM

(1) A letter of provisional acceptance will greatly influence final selection results. Applicants may be rejected if they have not obtained any such letter. Applicants who have passed the First Screening should, therefore, ask universities they wish to attend to issue letters of provisional acceptance.

(2) Applicants who have passed the First Screening shall directly contact the Japanese universities they wish to enter after the notification of the First Screening results by Friday, August 9, 2024 (Japan time) in order to request the issuance of letters of provisional acceptance as a regular or a non-regular student in graduate school. Applicants should be aware the following notes.

① The number of universities which can be filled in the ②Placement Preference Application Form is up to three universities. The applicants can, however, obtain up to a maximum of two letters of provisional acceptance. Do not obtain more than two letters of provisional acceptance.

② Applicants can contact up to a maximum of two universities at the same time. Do not contact more than two universities at the same time. If, however, they have received a rejection from one of the universities and thus they have been waiting for reply from less than two universities, then they can newly contact another university for request a letter of provisional acceptance.

③ If Applicant is rejected by an university, he/she should neither request an acceptance letter from another faculty member or graduate school at that university, nor lodge an objection to the university.

④ **A contact with universities requesting issuance of a letter of provisional acceptance made on Saturday, August 10, 2024 or after is not permitted.**

⑤ Since the above "Friday, August 9, 2024 is not the deadline for the universities to issue a letter of provisional acceptance, applicants must not urge the universities for the issuance. However, applicants may confirm with the university if the scheduled time of the issuance is delayed. In addition, applicants should keep it in mind when scheduling request letters of provisional acceptance that universities generally need one month to issue a letter of provisional acceptance.

⑥ Applicants should first contact the division of international student affairs at the university (not an academic advisor you wish to be supervised by) to request a letter of provisional acceptance. (MEXT will inform the divisions of international student affairs beforehand that applicants who have passed the first screening may contact them.) The Japanese diplomatic mission can provide a list of contact information.

⑦ The information on useful websites to search Japanese universities and researchers are also available from the Japanese diplomatic mission.

(3) When requesting universities for issuance of a letter of provisional acceptance, applicants must submit directly to universities the following documents (a) and (b).

(a) Copy of a Passing Certificate of the First Screening issued by the Japanese diplomatic mission

(b) A set of copies of the following documents submitted to the Japanese diplomatic mission among the "9. APPLICATION DOCUMENTS" that have been stamped by the Japanese diplomatic mission and returned to the applicants

- ① Application Form
- ③ Field of Study and Research Plan
- ④ Academic transcript for all academic year of university attended

- ⑩ Recommendation letter from the present employer (*Only if submitted to the Japanese diplomatic mission)
- ⑪ Photograph(s) showing applicant's own works of art or a digitally recorded media of musical performance (*Only if submitted to the Japanese diplomatic mission)

Applicants must submit any other necessary documents requested by universities. Do not submit " ②Placement Preference Application Form" to the universities.

The above documents (a) and (b) should be sent by e-mail, but in cases when it is difficult to access the Internet, the documents may be sent by postal mail. Please make sure each document ①, ③ to ⑪ have been stamped, and that all lettering and photographs are clear and legible. Please also note that if a copy of the Passing Certificate of the First Screening is not submitted, the university cannot comply with the request to issue a letter

of provisional acceptance.

- (4) Applicants must always report the response from the universities and submit the final Placement Preference Application Form based on the responses from the universities and obtained letters of provisional acceptance to the Japanese diplomatic mission by the specified deadline. It is not allowed to fill in the Placement Preference Application Form the names of universities or supervisors and all departments at the universities that have declined the applicant's request.
- (5) Applicants should confirm carefully with the universities the period of arrival in Japan specified in the letter of provisional acceptance because it is not permitted, in principle, to change the specified period of arrival even if the applicants have stated in their Application Forms that they were able to arrive in either for the April term or the October term.
- (6) Forms other than those specified by MEXT for the letter of provisional acceptance will not be accepted. If a university issues a letter of provisional acceptance in a different format, the applicant should promptly contact the university and request that the university issue the letter in the MEXT-specified format.

12. SECOND SCREENING AND UNIVERSITY PLACEMENT

- (1) MEXT conducts the Second Screening based on the results of the First Screening conducted by the Japanese diplomatic mission in the applicant's country, and selects the applicants as the MEXT Scholarship Students as long as their placement to universities have been decided.

An application may be rejected if it arouses proliferation concerns including those over weapons of mass destruction (WMD) and related items.

- (2) An applicant who successfully passes the Second Screening will, in principle, be placed at the university from which the applicant has received a letter of provisional acceptance. MEXT will hold consultations with the three preferred universities listed in the applicant's Placement Preference Application Form and place the applicant at the university that approves the admittance as result of the consultation.

In case that the applicant's preferences include a private or non-national public university as well as a national university, the applicant's preference order specified in his/her Placement Preference Application Form may not be met due to restrictions on the Japanese government's budget, and the option of national university is prioritized regardless.

- (3) Applicants who receive a letter of provisional acceptance to the regular course at a graduate school will be directly placed in the said regular course without going through the period of the non-regular student.
- (4) If an applicant is judged by the accepting university, based on the results of the written examination of language given in the First Screening, not to have adequate Japanese language proficiency to understand lectures or research guidance for experiments or practical training at the university, the applicant will be placed in a course of Japanese-language preparatory education at an institution designated by the accepting university or MEXT for the first six-month period after the arrival in Japan. Upon completion of the Japanese language course, the grantee will enter the accepting university for advanced education.
- (5) If a grantee is deemed by the accepting university to have sufficient Japanese language proficiency to conduct research, the grantee may directly enter the accepting university as a regular student or a non-regular student.
- (6) Applicants will be notified by the Japanese diplomatic mission of the final selection results and the grantees' accepting university from January 2025 to February 2025. The reasons for the results of the final selection will not be disclosed. Any objections to the decision on the university placement will not be accepted.

13. ACADEMIC PATHWAY FOR RESEARCH STUDENTS

The following chart indicates possible academic pathway as a MEXT Scholarship Research Student.

- (1) In the above chart, the single-lined arrow → indicates that the application for extension of the scholarship period is unnecessary. The double-lined arrow ⇒ indicates that the application for extension of the scholarship period will be necessary to proceed to a higher program. Extension of the scholarship period will be permitted only if the successful student has passed an entrance examination for a regular degree program at a graduate school. (See "5. EXTENSION OF PERIOD OF SCHOLARSHIP".)
- (2) While the entrance examinations to graduate school vary depending on universities, assessment of the applicant's foreign language competence, grasp of the specialized subject for study, plans for the graduation thesis, interview, etc. are normally included.
- (3) The degree courses at the university's graduate schools under the Japanese school system include as follows.
 - ① Master's degree course: The standard period of study is two years subsequent to graduation from a university. In some courses, the duration is less than two years but more than one year. Students who complete a master's degree course are awarded a Master's Degree.
 - ② Doctoral degree course: A three-year degree course subsequent to completion of a master's degree course. In the fields of medicine, dentistry and veterinary science, and pharmacy which is based on a 6-year undergraduate course, most of the universities offer only 4-year doctoral courses. Applicants are required to have completed 18 years of school education. Students who complete a doctoral degree course are awarded a Doctoral Degree.
 - ③ Professional degree course: A course at a professional graduate school. The standard period of study is two years. In some fields of study, the duration is less than two years but more than one year. Student who complete a professional degree course are awarded a Professional Degree. Graduate law schools offer a three-years course and students who complete the course are also awarded a Professional Degree (so-called a Juris Doctor).

14. UNAVOIDABLE CIRCUMSTANCES

In the event of unavoidable or unforeseen circumstances, Japanese Government reserves the right to change or cancel the arrival date, scholarship, and contents of the application guidelines here within, at any time before or after notification of the results of the final selection.

Unavoidable Circumstances are defined as events whose effects could not reasonably be prevented or controlled by MEXT or Ministry of Foreign Affairs (including Embassies and Consulate generals of Japan) including but not limited to acts of God, acts of government (including local government, hereafter referred to as government), acts of government authorities (including limitations on travel or immigration enacted by the Japanese government or other foreign countries' government due to the event of infectious disease), compliance with law, regulations or orders, fire, flooding and torrential rain, earthquakes, acts of war (regardless of a declaration of war), revolt, revolution or rebellion, strike, or lockout.

15. NOTES

- (1) The grantees should learn, before departing for Japan, the Japanese language and acquire information about Japanese weather, climate, customs, university education, and conditions of the university to attend in Japan, as well as about the difference between the Japanese legal system and that of his/her home country.
- (2) As the first installment of the scholarship payment will be made from one month to one and a half months after the grantee's arrival in Japan, the grantee is recommended to bring at least approximately US\$2,000 with him/her to Japan to cover immediate living expenses and other necessary expenses.
- (3) The scholarship payments will be transferred to the bank account of Japan Post Bank (JP Bank) opened by each grantee after the arrival in Japan. MEXT will not transfer the scholarship payments to other account.

- (4) Grantees who have tested positive for infectious diseases including tuberculosis following a medical exam must be treated before arrival in Japan. Grantee's arrival in Japan will not be approved if he/she is not fully recovered by the time of arrival.
- (5) Grantees must enroll in National Health Insurance (Kokumin Kenko Hoken) upon arrival in Japan.
- (6) It is suggested that grantees acquire a "Individual Number Card (My Number Card)" upon arrival in Japan.
- (7) Accommodations:
 - ① Residence halls for international students provided by universities: Some universities have residence halls for international students. The grantees enrolled at such universities may reside at these residence halls under certain conditions. However, due to the limited number of rooms, some of these facilities may be unavailable. Expenses relating to accommodations will be borne by the grantee. As some universities might ask the grantees to pay expenses relating to accommodations in advance of arriving in Japan, grantees should check with the accepting university after its decision on their acceptance.
 - ② Private boarding houses or apartments: Those who are unable to find accommodation in the aforementioned facilities may live in regular dormitories of the university or in private boarding houses/apartments with his/her expenses. It is difficult for grantees with dependents (spouse and children) to find appropriate housing in Japan. The grantee is requested to arrive in Japan alone first to secure housing before having his/her dependents come to Japan.
- (8) Information regarding the MEXT Scholarship Students (name, gender, date of birth, nationality, accepting university/graduate school/undergraduate school, field of specialty, period of enrolment, career path after completion of scholarship, contact information [address, telephone number, e-mail address]) may be shared with other relevant government organizations for the purpose of utilization for international students programs implemented by the Japanese Government (support during period of study in Japan, follow-up survey, improvement of the international student system).

Information regarding MEXT Scholarship Students (excluding date of birth and contact information) may be included in publicity materials prepared by the Japanese Government for promoting the acceptance of international students in Japan, particularly in order to introduce former MEXT Scholarship Students who are playing active roles in countries around the world.

These matters are included in the Pledge stipulating rules and regulations which MEXT Scholarship Students must comply with and submit when they have been granted the Scholarship. Those who consent to this treatment will be admitted as MEXT Scholarship Student.
- (9) In principle, receiving another scholarship from an organization (including a government organization of the home country) other than the Japanese government (MEXT or other Japanese government organization) is permitted. However, applicants should consult with the Japanese diplomatic mission in the home country in advance, since some scholarships may not be combined.
- (10) If an applicant is judged not to meet the conditions for landing in Japan, he/she may be rejected.
- (11) The English texts attached to the Application Guidelines and the Application Form are for complementary use only. English expressions do not change the Japanese content.
- (12) If there are any questions about the content of the written text in this Application Guidelines or any other matters, applicants/grantees should inquire the Japanese diplomatic mission in the country of the applicant's nationality and follow their instructions.
- (13) In addition to the regulations stipulated in this Application Guidelines, those that are necessary to implement the Japanese Government Scholarship programs shall be determined by the Japanese Government.

3. PREPARATORY EDUCATION AND STUDY AT UNIVERSITY

(1) Preparatory Education ※Not provided for grantees enrolling directly in their university

- ① Each grantee will be enrolled at a preparatory educational institution designated by MEXT for the first year of the scholarship period. The preparatory course is a one-year intensive course in the Japanese language and other subjects necessary for preparation for proceeding to university. Its curriculum mainly consists of education in the Japanese language, and includes other subjects such as Japanese affairs, mathematics, English, and social studies for those majoring in Social Science and Humanities, and physics, chemistry and biology for those majoring in Natural Sciences.
- ② A grantee who has completed the preparatory education will go on to a university designated by MEXT upon passing its entrance examination undertaken by the university. If a grantee is determined to be incapable of completing the preparatory course, his/her scholarship will be cancelled and he/she will be required to return to his/her home country.
- ③ If a grantee cannot enter the university even though he/she has completed the preparatory education, his/her scholarship will be cancelled, and he/she will be required to return to his/her home country.

(2) University Education

- ① The university which a grantee will enter will be decided by MEXT in consultation with the university and the preparatory educational institution and in comprehensive consideration of the results of the academic examinations in the First Screening conducted at the Japanese Embassy or Consulate (hereinafter referred to “Japanese diplomatic mission”) in the country of applicant’s nationality, academic achievement at the preparatory educational institution, the grantee’s proposed major subject, and the receiving capacity of the university as well as the region where it is located. No objection by the grantee against the decision will be allowed.
- ② In principle, the academic year begins on April 1 each year and ends on March 31 the following year.
- ③ All classes will be given in the Japanese language (except where a grantee is directly placed at a university which requires no Japanese language ability). (See 4. DIRECT PLACEMENT)
- ④ If a grantee attends the designated university for the prescribed number of years and earns the required number of credits as determined by the university, he/she will be awarded a bachelor’s degree.

(3) Change of Field of Study, Transfer to Another University and Subjects to be Studied

- ① A grantee will not be permitted to change his/her course (Social Sciences and Humanities A and B, and Natural Sciences A, B, and C).
- ② A grantee will not be permitted to transfer to another university during the period of the preparatory education course or the undergraduate course.
- ③ A grantee must study compulsory subjects as determined by the preparatory educational institution and the university even if he/she has already studied them at a university outside Japan.

4. DIRECT PLACEMENT

- (1) Only for those who choose “Social Sciences and Humanities”, if MEXT judges that they have sufficient Japanese language ability, etc., they will be directly placed in a university without going through preparatory education. In addition, regardless of their fields of study (either Social Sciences and Humanities or Natural Sciences) applicants who have sufficient Japanese language proficiency may request to enroll directly in their university without taking the preparatory education course. For cases where the undergraduate course of a university does not require Japanese language proficiency at the time of enrollment and allows applicants to enroll without going through the preparatory education, applicants may directly enroll in the said undergraduate course. (These cases are called “direct placement”.) In such cases, enrollment may be either from the spring term (grantees arrive in Japan in April 2025 and start from the spring term) or from the autumn term (grantees arrive in Japan in September or October 2025, and start from the autumn term), depending on the university’s academic calendar.
- (2) The decision on universities of applicants who are eligible for direct placement shall be made by MEXT in consultation with the relevant university, based on the preference of each applicant who has passed the First Screening. The university will examine the applicant’s academic achievement (academic grades in high school, etc.), and determine whether the applicant has adequate language skills for taking an undergraduate course in

either Japanese or English by a language proficiency test score (such as the Japanese-Language Proficiency Test (JLPT) for Japanese). In addition, some universities may conduct interviews with applicants or other examinations.

- (3) The period of consultation for direct placement will be from after the Second Screening to February 28, 2025. If the accepting university agrees to accept the applicant, he/she will enroll in the university under direct placement, otherwise he/she will be required to enroll in the preparatory educational institution.

5. QUALIFICATIONS AND CONDITIONS

MEXT accepts applications from international students for study in Japan who satisfy the following qualifications and conditions. Its aim is to foster human resources who will become bridges of friendship between the grantee's country and Japan through study in Japan and who will contribute to the development of both countries and the wider world.

- (1) **Nationality:** Applicants must have the nationality of a country that has diplomatic relations with Japan. An applicant who has Japanese nationality at the time of application is not eligible. Excluding cases in which MEXT deems as unavoidable circumstances, the applicant must withdraw from this scholarship program if the applicant cannot arrive in Japan by the end of the specified period above which decided by MEXT or the accepting university. If the applicant arrives in Japan not in the specified period for personal reasons, travel expenses to Japan will not be paid.

They shall also make efforts to promote relations between the home country and Japan by maintaining close relations with the university attended after graduation, cooperating with the conducting of surveys and questionnaires, and cooperating with relevant projects and

events conducted by the Japanese diplomatic mission after they return to their home countries.

6. PERIOD OF SCHOLARSHIP

(1) A grantee who studies at a preparatory educational institution prior to enroll in a university: The scholarship period will last for five years from April 2025 to March 2030, including one-year preparatory education in the Japanese language and other subjects due to be provided upon arrival in Japan. For scholarship grantees majoring in medicine, dentistry, veterinary medicine or a six-year course in pharmacy, the scholarship period will be seven years until March 2032.

(Note) If the university term begins (and the student status is acquired) in the middle of the month, the scholarship will not be paid for that month.

(ex.) If the university's autumn term starts on a day between September 2 and September 30, 2025, the beginning month of the scholarship period shall be October 2025.

(2) A grantee who enroll in a university through direct placement: The scholarship period will last for four years (or for six years for those majoring in medicine, dentistry, veterinary medicine or in a six-year course in pharmacy). The scholarship period will start from the time of enrollment in the university which the university designates.

(Note 1) In (2) above, in principle, the period of enrollment may be April 2025, September 2025 or October 2025 depending on the university's academic calendar.

(Note 2) If a grantee graduates earlier or withdraws from his/her undergraduate course for early entrance to graduate school, the scholarship will be provided until his/her graduation or withdrawal.

(Note 3) The grantees majoring a six-year course in pharmacy must undergo the "Pharmaceutical Common Achievement Tests" implemented prior to practical training. In cases when it is impossible for the grantees to fulfill the fixed standards necessary for practical training, the scholarship may be cancelled.

(3) Extension of period of scholarship

If a grantee graduates from an undergraduate course, is admitted for enrollment in a master's course or a doctoral course (first phase) at a graduate school during the period of his/her scholarship and has outstanding academic achievement that meets certain criteria, he/she may have the scholarship period extended upon a successful examination by MEXT.

7. SCHOLARSHIP BENEFITS

(1) Allowance: 117,000 yen per month. A supplemental regional allowance of 2,000 yen or 3,000 yen per month will be added to the monthly scholarship amount for the grantees studying or conducting research in specially designated regions. Due to the situation of the Japanese Government's budget, the amount of payment may be subject to change each fiscal year. If a grantee is absent from the university or the preparatory educational institution for an extended period, the scholarship shall be suspended for that period.

(2) Education Fees: Fees for the entrance examination, matriculation, and tuition at universities will be waived.

(3) Traveling Expenses

① **Transportation to Japan:** MEXT stipulates the travel schedule and route, and provide an airline ticket to grantees who will arrive in Japan during the specified period stated in "5. (6) Arrival in Japan". The airline ticket will be an economy-class ticket for the flight from the international airport closest to the grantee's residence (in principle, the country of nationality) to an international airport in Japan used on the normal route to the accepting university. The grantee shall bear at his/her own expense all costs related to domestic travel from the grantee's residence to the nearest international airport, airport taxes, airport usage fees, special taxes necessary for travel, travel expenses within Japan (including airline transit costs), travel insurance expenses, carry-on luggage or unaccompanied baggage expenses, etc. The grantee shall also bear at his/her own expense travel and lodging costs incurred in a third country in case (a) the grantee must travel to a third country on the way to Japan for visa purposes because there are no Japanese diplomatic missions in his/her country or because Japanese diplomatic missions in his/her country are temporally closed, or (b) there are no direct flights from the grantee's country of

nationality to Japan. In such cases, MEXT will provide an economy-class airline ticket from the grantee's country of residence to the said third country, and from the third country to an international airport in Japan used on the normal route to the accepting university. In principle, the address given in the space for "Your address before departure for Japan" on the application form shall be recognized as the "residence," and the airline ticket will be arranged for a flight from the international airport nearest to that address. Except for cases when the grantee must travel to a third country to obtain a visa, MEXT will not provide an airline ticket for cases of travel to Japan from a country other than the grantee's country of residence due to the grantee's personal circumstances. If a grantee will arrive in Japan before or after the specified period stated in "5. (6) Arrival in Japan", travel expenses will not be paid.

- ② **Transportation from Japan:** Based on the application by the grantee, MEXT will provide an airline ticket to grantees who shall graduate the accepting university and return to the home country by the end of the final month of the period of scholarship (See "6. PERIOD OF SCHOLARSHIP") designated by MEXT. MEXT shall provide an economy-class airline ticket from the international airport in Japan used for the normal route to and from the accepting university to the international airport (in principle, in the country of nationality) nearest to the returning recipient's residence. The grantee shall bear at his/her own expense all costs related to travel from the grantee's residence in Japan to the nearest international airport, airport taxes, airport usage fees, special taxes necessary for travel, travel expenses within the country of nationality (including airline transit costs), travel insurance expenses, carry-on luggage or unaccompanied baggage expenses, etc. If a grantee returns to the home country before the end of period of scholarship due to personal circumstances, or reasons stated in "8. SUSPENSION OF PAYMENT OF SCHOLARSHIP", MEXT will not pay for the returning travel expenses.

If a grantee continues to stay in Japan after the scholarship period has ended (ex. proceeding to further education or being employed in Japan, continuing to be registered at the university), travel expenses for a temporary return will also not be paid.

8. SUSPENSION OF PAYMENT OF SCHOLARSHIP

Payment of the scholarship will be cancelled for the reasons given below. Should any of the following reasons apply, the grantee may be ordered to return a part of, or all of, the scholarship paid up to that time. Payment of the scholarship may also be stopped during the period up to the decision on the disposition of the matter.

- ① A grantee is determined to have made a false statement on his/her application;
- ② A grantee violates any article of his/her pledge to the Minister of Education, Culture, Sports, Science and Technology;
- ③ A grantee violates any Japanese laws and is sentenced and imprisoned for an indefinite period or for a period of exceeding 1 year;
- ④ A grantee is suspended from his/her university or preparatory educational institution or receives other punishment, or is removed from enrollment; as a disciplinary action in accordance with school regulations of the accepting institution;
- ⑤ It has been determined that it will be impossible for a grantee to complete the course within the standard period of study because of poor academic grades or suspension or absence from the university or preparatory educational institution;
- ⑥ A grantee came to Japan without newly obtaining a "Student" visa, or changed his/her status of residence to something other than "Student" after entering into Japan;
- ⑦ A grantee has received another scholarship (a scholarship or fellowship from Japanese government, a Japanese government-related organization, and others) not approved for acceptance in conjunction with the MEXT Scholarship.
- ⑧ A grantee proceeds to a more advanced level of education without receiving approval for an extension of the period of the scholarship.

3. PREPARATORY EDUCATION AND STUDY AT NATIONAL INSTITUTE OF TECHNOLOGY (KOSEN)

(1) Preparatory Education

- ① Each grantee will be enrolled at a preparatory educational institution designated by MEXT for the first year

of the scholarship period. The preparatory course is a one-year intensive course in the Japanese language, Japanese affairs, mathematics, and other subjects necessary for preparation for proceeding to a national institute of technology (KOSEN).

- ② A grantee who has completed the preparatory course will go on to a national institute of technology (KOSEN) designated by MEXT. If a grantee is determined to be incapable of completing the preparatory course, his/her scholarship will be cancelled and he/she will be required to return to his/her home country.
- ③ If a grantee cannot enter the national institute of technology (KOSEN) even though he/she has completed the preparatory education, his/her scholarship will be cancelled, and he/she will be required to return to his/her home country.

(2) National Institute of Technology (KOSEN)

- ① The national institute of technology (KOSEN) which the grantee who has completed the preparatory course enrolls will be decided by MEXT upon consultation with the college concerned. No objection by the grantee against the decision will be allowed.
- ② National institute of technology (KOSEN) operates under a five-year course requiring graduation from a junior high school for entrance, but the grantees of this scholarship will be enrolled into the third year of the course at the national institute of technology (KOSEN) and receive specialized education for three years prior to graduation (or three and a half years for those who major in maritime engineering). A grantee who graduates will be awarded a diploma and an academic title of “Associate”.
- ③ All classes will be given in the Japanese language.
- ④ After a five-year course, a two-year advanced course is offered by the national institute of technology (KOSEN) to provide a further level of education. If a grantee wishes to continue study at the advanced course as MEXT Scholarship student, the scholarship period should be extended upon successful examination by MEXT (See “5. (2) Extension of period of scholarship”). If a grantee completes the advanced course and passes the examination by the National Institution for Academic Degrees and Quality Enhancement of Higher Education (NIAD-QE), NIAD-QE awards a bachelor’s degree to him/her.

(3) Change of Field of Study and Transfer to Another Institution

- ① A grantee will not be permitted to change his/her field of study during the study at preparatory educational institution and national institute of technology (KOSEN).
- ② A grantee will not be permitted to transfer to another educational institution during the period of the preparatory education course or the course at the national institute of technology (KOSEN).

4. QUALIFICATIONS AND CONDITIONS

MEXT accepts applications from international students for study in Japan who satisfy the following qualifications and conditions. Its aim is to foster human resources who will become bridges of friendship between the grantee’s country and Japan through study in Japan and who will contribute to the development of both countries and the wider world.

(1) Nationality: Applicants must have the nationality of a country that has diplomatic relations with Japan. An applicant who has Japanese nationality at the time of application is not eligible. However, persons with dual nationality who hold Japanese nationality and whose place of residence at the time of application is outside of Japan are eligible to apply as long as they choose the nationality of the other country and renounce their Japanese nationality by the date of their arrival in Japan (the acquisition of student status). The First Screening must be conducted at the Japanese diplomatic mission in the country of which the applicant chooses the nationality.

(2) Age: Applicants, in principle, must be born between on or after April 2, 2000.

Exceptions are limited to cases in which MEXT deems that the applicant could not apply within the eligible age limit due to the situation or circumstances of the applicant’s country (military service obligation, loss of educational opportunities due to disturbances of war, etc.) Personal circumstances (financial situation, family

circumstances, state of health, circumstances related to applicant's university or place of employment, etc.) will not be considered for exceptions.

(3) Academic Background: Applicants must satisfy any one of the following conditions.

In addition, in principle, applicants must be willing to receive National Institute of technology (KOSEN) education in Japanese.

(5) Health: Applicants must submit a health certificate in the prescribed format signed by a physician attesting that the applicant has no physical or mental conditions hindering the applicant's study in Japan.

(6) Arrival in Japan: In principle, applicants must be able to arrive in Japan between April 1, 2025, and April 7, 2025. Departure from the home residence should be on or after April 1, 2025.

Excluding cases in which MEXT deems as unavoidable circumstances, the applicant must withdraw from this scholarship program if the applicant cannot arrive in Japan by the end of the specified period above which decided by MEXT or the accepting preparatory educational institution. If the applicant arrives in Japan not in the specified period for personal reasons, travel expenses to Japan will not be paid.

(7) Visa Requirement: An applicant shall, in principle, newly obtain a "Student" visa at the overseas establishment of Japan located in the applicant's country of nationality, and enter Japan with the residence status of "Student." If the applicant lives in Japan exceptionally under a residence status other than "Student" before acceptance, the applicant must change his/her status to "Student" by the end of the previous month before the installment of scholarship payment.

- ⑤ Those who are already enrolled in a Japanese university or other institution with a residence status of "Student," or who are to be enrolled, or plan to be enrolled, in a Japanese university or other institution as a privately-financed international student from the time of application to the MEXT scholarship program in the applicant's country until the commencement of the period for payment of the MEXT scholarship. However, this stipulation does not apply to privately-financed international students who, are enrolled, or are planning to be enrolled, in a Japanese university or other institution but verifiably complete their studies before the start of the scholarship payment period, and newly acquire the "Student" residence status, or

change his/her status to, or renew his/her status as, “Student”.

5. PERIOD OF SCHOLARSHIP

- (1) The scholarship period will last for four years from April 2025 to March 2029, including one-year preparatory education in the Japanese language and other subjects due to be provided upon arrival in Japan. For scholarship grantees majoring in maritime engineering, the scholarship period will be four and a half years, lasting up to September 2029.
- (2) Extension of period of scholarship: If a grantee graduates from a national institute of technology (KOSEN), is admitted for enrollment in an advanced course at a national institute of technology (KOSEN) or in a Japanese national university as a third-year transfer student and has outstanding academic achievement that meets certain criteria, he/she may have the period of his/her scholarship extended upon successful examination by MEXT (transfer students enrolled at a public or private university are ineligible).

6. SCHOLARSHIP BENEFITS

- (1) **Allowance:** 117,000 yen per month. A supplemental regional allowance of 2,000 yen or 3,000 yen per month will be added to the monthly scholarship amount for the grantees studying or conducting research in specially designated regions. (3) Traveling Expenses

- ① **Transportation to Japan:** MEXT stipulates the travel schedule and route, and provides an airline ticket to grantees who will arrive in Japan during the specified period stated in “4. (6) Arrival in Japan”. The airline ticket will be an economy-class ticket for the flight from the international airport closest to the grantee’s residence (in principle, the country of nationality) to an international airport in Japan used on the normal route to the accepting institution. The grantee shall bear at his/her own expense all costs related to domestic travel from the grantee’s residence to the nearest international airport, airport taxes, airport usage fees, special taxes necessary for travel,

travel expenses within Japan (including airline transit costs), travel insurance expenses, carry-on luggage or unaccompanied baggage expenses, etc. The grantee shall also bear at his/her own expense travel and lodging costs incurred in a third country in case (a) the grantee must travel to a third country on the way to Japan for visa purposes because there are no Japanese diplomatic missions in his/her country or because Japanese diplomatic missions in his/her country are temporally closed, or (b) there are no direct flights from the grantee's country of nationality to Japan. In such cases, MEXT will provide an economy-class airline ticket from the grantee's country of residence to the said third country, and from the third country to an international airport in Japan used on the normal route to the accepting institution. In principle, the address given in the space for "Current address" on the application form shall be recognized as the "residence". However, if the grantee plans to move within his/her country of nationality after application, the address given in the space for "Your address before departure for Japan" on the application form shall be recognized as the "residence" and the airline ticket will be arranged for a flight from the international airport nearest to that address. Except for cases when the grantee must travel to a third country to obtain a visa, MEXT will not provide an airline ticket for cases of travel to Japan from a country other than the grantee's country of residence due to the grantee's personal circumstances. If a grantee will arrive in Japan before or after the specified period stated in "4. (6) Arrival in Japan", travel expenses will not be paid.

- ② **Transportation from Japan:** Based on the application by the grantee, MEXT will provide an airline ticket to grantees who shall graduate the national institute of technology (KOSEN) and return to the home country by the end of the final month of the period of scholarship (See "5. PERIOD OF SCHOLARSHIP") designated by MEXT. MEXT shall provide an economy-class airline ticket from the international airport in Japan used for the normal route to and from the accepting institution to the international airport (in principle, in the country of nationality) nearest to the returning recipient's residence. The grantee shall bear at his/her own expense all costs related to travel from the grantee's residence in Japan to the nearest international airport, airport taxes, airport usage fees, special taxes necessary for travel, travel expenses within the country of nationality (including airline transit costs), travel insurance expenses, carry-on luggage or unaccompanied baggage expenses, etc. If a grantee returns to the home country before the end of the period of scholarship due to personal circumstances, or reasons stated in "7. SUSPENSION OF PAYMENT OF SCHOLARSHIP", MEXT will not pay for the returning travel expenses.

If a grantee continues to stay in Japan after the scholarship period has ended (ex. proceeding to further education or being employed in Japan, continuing to be registered at the university) , travel expenses for a temporary return will also not be paid.

7. SUSPENSION OF PAYMENT OF SCHOLARSHIP

Payment of the scholarship will be cancelled for the reasons given below. Should any of the following reasons apply, the grantee may be ordered to return a part of, or all of, the scholarship paid up to that time. Payment of the scholarship may also be stopped during the period up to the decision on the disposition of the matter.

- ⑥ A grantee came to Japan without newly acquiring the "Student" visa, or changed his/her residence status to something other than "Student" after entering Japan ;
- ⑦ A grantee has received another scholarship (a scholarship or fellowship from Japanese government, a Japanese

government-related organization and others) not approved for acceptance in conjunction with the MEXT Scholarship;

5. PERIOD OF SCHOLARSHIP

- (1) The scholarship period will last for three years from April 2025 to March 2028, including one-year preparatory education in the Japanese language and other subjects due to be provided upon arrival in Japan.
- (2) Extension of period of scholarship: If grantee graduates from a specialized training college, is admitted for enrollment in a Japanese national university as a third-year transfer student and has outstanding academic achievement that meets certain criteria, he/she may have the period of his/her scholarship extended upon successful examination by MEXT (transfer students enrolled at a public or private university are ineligible).

6. SCHOLARSHIP BENEFITS

- (1) Allowance:** 117,000 yen per month. A supplemental regional allowance of 2,000 yen or 3,000 yen per month will be added to the monthly scholarship amount for the grantees studying or conducting research in specially designated regions. Due to the situation of the Japanese Government’s budget, the amount of payment may be subject to change each fiscal year. If a grantee is absent from the specialized training college or preparatory educational institution for an extended period, the scholarship shall be suspended for that period.
- (2) Education Fees:** Fees for the entrance examination, matriculation, and tuition at specialized training colleges and preparatory educational institutions will be paid by MEXT.
- (3) Traveling Expenses:**
 - ① **Transportation to Japan:** MEXT stipulates the travel schedule and route, and provides an airline ticket to grantees who will arrive in Japan during the specified period stated in “4. (6) Arrival in Japan”. The airline ticket will be an economy-class ticket for the flight from the international airport closest to the grantee’s residence (in principle, the country of nationality) to an international airport in Japan used on the normal route to the accepting institution. The grantee shall bear at his/her own expense all costs related to domestic travel from the grantee’s residence to the nearest international airport, airport taxes, airport usage fees, special taxes necessary for travel, travel expenses within Japan (including airline transit costs), travel insurance expenses, carry-on luggage or unaccompanied baggage expenses, etc. The grantee shall also bear at his/her own expense travel and lodging costs incurred in a third country in case (a) the grantee must travel to a third country on the way to Japan for visa purposes because there are no Japanese diplomatic missions in his/her country or because Japanese diplomatic missions in his/her country are temporally closed, or (b) there are no direct flights from the grantee’s country of nationality to Japan. In such cases, MEXT will provide an economy-class airline ticket from the grantee’s country of residence to the said third country, and from the third country to an international airport in Japan used on the

normal route to the accepting institution. In principle, the address given in the space for “Current address” on the application form shall be recognized as the “residence”. However, if the grantee plans to move within his/her country of nationality after application, the address given in the space for “Your address before departure for Japan” on the application form shall be recognized as the “residence” and the airline ticket will be arranged for a flight from the international airport nearest to that address. Except for cases when the grantee must travel to a third country to obtain a visa, MEXT will not provide an airline ticket for cases of travel to Japan from a country other than the grantee’s country of residence due to the grantee’s personal circumstances. If a grantee will arrive in Japan before or after the specified period stated in “4. (6) Arrival in Japan”, travel expenses will not be paid.

- ② **Transportation from Japan:** Based on the application by the grantee, MEXT will provide an airline ticket to grantees who shall graduate the specialized training college and return to the home country by the end of the final month of the period of scholarship (See “5. PERIOD OF SCHOLARSHIP”) designated by MEXT. MEXT shall provide an economy-class airline ticket from the international airport in Japan used for the normal route to and from the accepting institution to the international airport (in principle, in the country of nationality) nearest to the returning recipient’s residence. The grantee shall bear at his/her own expense all costs related to travel from the grantee’s residence in Japan to the nearest international airport, airport taxes, airport usage fees, special taxes necessary for travel, travel expenses within the country of nationality (including airline transit costs), travel insurance expenses, carry-on luggage or unaccompanied baggage expenses, etc. If a grantee returns to the home country before the end of scholarship payment period due to personal circumstances, or reasons stated in “7. SUSPENSION OF PAYMENT OF SCHOLARSHIP” below, MEXT will not pay for the returning travel expenses.

If a grantee continues to stay in Japan after the scholarship period has ended (ex. proceeding to further education or being employed in Japan, continuing to be registered at the university), travel expenses for a temporary return will also not be paid.

7. SUSPENSION OF PAYMENT OF SCHOLARSHIP

Payment of the scholarship will be cancelled for the reasons given below. Should any of the following reasons apply, the grantee may be ordered to return a part of, or all of, the scholarship paid made up to that time. Payment of the scholarship may also be stopped during the period up to the decision on the disposition of the matter.

- ① A grantee is determined to have made a false statement on his/her application;
- ② A grantee violates any article of his/her pledge to the Minister of Education, Culture, Sports, Science and Technology;
- ③ A grantee violates any Japanese laws and is sentenced and imprisoned for an indefinite period or for a period of exceeding 1 year;
- ④ A grantee is suspended from his/her specialized training college or preparatory educational institution or receives other punishment, or is removed from enrollment; as a disciplinary action in accordance with school regulations of the accepting institution;
- ⑤ It has been determined that it will be impossible for a grantee to complete the course within the standard period of study because of poor academic grades or suspension or absence from the specialized training college or preparatory educational institution;
- ⑥ A grantee came to Japan without newly obtaining a “Student” visa, or changed his/her status of residence to something other than “Student” after entering into Japan;
- ⑦ A grantee has received another scholarship (a scholarship or fellowship from Japanese government, a Japanese government-related organization and others) not approved for acceptance in conjunction with the MEXT Scholarship;
- ⑧ A grantee proceeds to a more advanced level of education without receiving approval for an extension of the period of the scholarship.
